The hog market yesterday was uneven and fluctuating, opening five cents higher and seiling up strong through the early part of the trading, and closing weak to five lower, on reports from eastern markets. The trade was spanmodic and Intermittent, some of the time active and regular, then relageing into quasi-duliness and quiet. It was all that could be expotted, however, considering the condi-tion of the market, here and all over. Everything was disposed of, even the several londs carried over from Thurs-day, and also what was on sale of the Gay's receipts. The wagon trade, though not voluminous, was fair as to quantity, and was spread out over most of the day. the must effered in this branch being mix-ed common to fair and selling strong and about the same as the day previous, the tops for this division remaining the same as Thursday's tops. The car load tops were Fig. cents under those of the day e one of the two loads coming in the displayed weakness. The general verage quality throughout the day was mir fair, the bulk of the early receipts being very poor, only a very small part owever, the tone of the offerings improvall these sold readily at all the mar-would warrant. One top oar, which among the late arrivals, was the of for the day, averaging 357 pounds of running even and firm in stock. The her top load was one which was car-I over from the day before, and sold as much as it could have done on greday. It was a load of medium lights. her load of 59 heardes was a good averaging 371 and going at 2% cents the top price, as it was the next the last to be weighed up and was sived on the weak decline. The avage weight for the day was 12 pounds thier than for Thursday, the few me-um to heavy loads being offset by mixed

illing off, and light weights and inr quality fixewise prevail largely. Chicago the receipts were only 17,too, about half the receipts of the previous day. The early trude was generally stronger to B4 cents higher prices, but quent weakness caused all the imment to be lost. There were carried ver from the day before, 11,000, indicating Now sale. At Kansas City the receipts were 5.00, just 3.000 short of the day become The market opened strong to 10 cm/s higher and closed weak. ENORMOUS GRAIN EXPORTS

Textile Markets Show Signs of a Revival.

New York, May M .- R. G. Dun & Ca's weekly review of trade will may in somorrow's issue:

The nation faces war with a reviving volume of business. The west is doing its part and more, but at the east also the volume of business is now expanding. Without abatement in any important line the great outgo of wheat and corn continues to stimulate business at the west and railroad earnings show an increase Martha Mary Ellen Nickerson over hast year of Mil per cent in granger roads, and lines, 8.8 per cent in granger roads, and in the other western roads 14.4 per cent. while eastbound shipments from Chicago in three weeks have been \$35.505 tone.

Wheat receipts at the west did not diminish but run far beyond those of a year ago-for one week 4,05,25 bushels, against 2,908,173 last year. In four weeks exports from both cousts have been 112.691.674 bushels, against 5.704.834 last year. The marvel is still the enormous buying of corn, exports having reached \$,150.865 bushels for the week, against 1,581.-511 last year, and in four weeks the exports have been 20,285,097 bushels, against 8,260,091 last year. Yet corn closes 2.87: lower for the week, although wheat, after rising from \$1.56 to \$1.66 for May, fell to \$1.45 on Friday, while July options fell Nic. Official and all other accounts agree in estimating that the wheat yield will be remarkably large this year, in spite of the fact that the California crop has been much damaged by want of rain. Starting this month with the greatest consumption ever known, the fron industry has made surprising progress in new orders, which reached about 100,000 tons in bars alone, over 50,000 having been piaced at Chicago and 15,000 at Wheeling, mainly resulting from the extraordinary demand for agricultural implements Class Heav prontracts for structural work amount during the week to at least 15,000 Instrumental Duet (Schubert) March ern cities.
